

Glenmark gets USFDA's tentative nod for acne gel

Glenmark Pharmaceuticals has received tentative approval from the US health regulator USFDA for the generic version of Galderma Laboratories LP's Epiduo gel used in the treatment of acne. Adapalene and benzoyl peroxide gel is a generic version of Galderma Laboratories LP's Epiduo. According to IMS Health sales data for the 12 months to February, Glenmark said Epiduo gel achieved annual sales of around \$352 million.
