

## USFDA to increase India headcount

Hyderabad: The US Food and Drug Administration, which has offices in New Delhi and Mumbai, is in the process of increasing its headcount in India to 19. Solomon Yimam, assistant country director, US FDA India Office while denying that the inspections are targeted, said the frequency of audits of Indian facilities would depend on the number of product applications filed from that facility. "USFDA is in the process of taking the headcount up to 19. We are in the process of bringing more (officials)," he informed. — PTI
