

Suven Life Sciences gets 5 patents

Hyderabad, December 12

Suven Life Sciences Ltd has obtained two product patents from Israel and one each from Japan, China and New Zealand for its New Chemical Entities. In a release issued here on Friday, the Hyderabad-based company said the granted claims of the patents include the class of selective 5-HT compounds discovered by Suven and were being developed as therapeutic agents. "They are useful in the treatment of cognitive impairment associated with neurodegenerative disorders like Alzheimer's disease, Attention deficient hyperactivity disorder (ADHD), Huntington's disease, Parkinson and Schizophrenia," it added.
