

Lupin Scouting for Acquisitions in India

NEW DELHI Lupin is looking to acquire companies and launch new products in the domestic market as it aims to scale up its Indian operations.

The Mumbai-based firm, which is the fifth largest generic player in the US market, has so far stayed away from inorganic growth in India where it clocked revenues of ₹2,479 crore in the previous fiscal. The company is looking at ramping up its India business, with new product launches aided by strategic in-licensing alliances, Lupin Group President Shakti Chakraborty said.
