

### **Strides to sell Tacrolimus capsules**

Mumbai, July 23

Pharma firm Strides Arcolab today announced that it has received approval from the United States Food & Drug Administration (USFDA) for marketing of Tacrolimus capsules, used as immuno-suppressant. "We have received approval from the USFDA for Tacrolimus capsules USP, 0.5 mg, 1 mg, and 5 mg and (they) will be launched immediately," the company statement said. The product will be manufactured at the company's oral dosage facility at Bangalore and marketed directly by Strides in the US market. Tacrolimus capsule is an immuno-suppressant and is used for preventing organ rejection in certain patients following liver, kidney, or heart transplant. PT
