Suven Life gets 7 product patents

Hyderabad, December 23

Biopharmaceutical company Suven Life Sciences Ltd has announced it has secured product patents in Europe, Hong Kong, Japan, Macau and South Korea and from ARIPO (African Regional Intellectual Property Organisation) for New Chemical Entities (NCE's) useful in the central nervous system (CNS) therapy. In a filing with the BSE, the Hyderabad-based company stated that these patents, valid until 2031, are useful in the treatment of cognitive impairment associated with neurodegenerative disorders. Suven achieved these IPs through the internal discovery research efforts. Products out of these inventions may be out-licensed at various phases of clinical development like at phase-I or phase-II.
