

Natco Pharma did not follow quality control norms: US FDA

The US Food and Drug Administration (FDA) has noted that Hyderabad-based Natco Pharma did not follow quality control measures "fully" at its formulation unit in Telangana. The US drug regulator has made six observations after the completion of inspection of its Kothur formulation facility in Telangana, Natco said on Wednesday. The FDA had inspected the Kothur formulation facility between January 16-24, 2017, Natco Pharma said. The firm, however, stated all observations were "correctable and procedural and it believes are minor in nature". **BS REPORTER**
