

■ **Drug Pricing Regime Needs to be Predictable: Sanofi**

NEW DELHI Government must not place the entire burden of access to healthcare on the pharmaceutical industry alone, Sanofi India has said while hitting out at more medicines being put under price control. Speaking at the company's annual general meeting held on April 29, the Sanofi India managing director said, "Any pricing regime must be predictable and transparent and must take into consideration the stringent requirements on the quality front that the manufacturers have to adhere to for patient safety."
