

Aurobindo to sell anti-infective drug

Hyderabad, September 16

Aurobindo Pharma has received final approval from the US Food & Drug Administration (USFDA) to manufacture and market Amoxicillin for oral suspension, used to treat infections. The drug is the generic equivalent to the reference listed drug product (RLD) Amoxicillin for oral suspension of Teva Pharmaceutical Industries. The product had a market size of approximately \$19 million for the 12 months ending July 2014, according to IMS. OUR BUREAU
